FOREWORD

First, I would like to congratulate the publication of “Strengthening Regional and Local Economy”, the 2019 IRSA Book Series of Regional Development. The content of this book was selected from the best presentations at the 14th IRSA International Conference held in Solo, hosted by Universitas Sebelas Maret in 2018. IRSA is indebted to all the authors of each of the chapter and in particular to the editors who have worked tirelessly to maintain the quality of the book series. IRSA Book Series of Regional Development, in addition to IRSA Annual Conference, is the flagship of IRSA activities and the key to IRSA’s reputation in the academic and policy arena in Indonesia and the Asia Pacific region.

The topic of this book is also a special one, particularly for IRSA and regional scientists in Indonesia in general. Although Indonesia has been decentralizing many of its development authority to regions and localities, national issues or development agendas that have nation-wide attention are still more appealing as topics of analysis to academics and development practitioners. This may have made the real development actions at the local and regional level get less attention than it deserves. Indonesia’s geography, demography and socio, economic and political aspects are so spatially-heterogenous that require specific analysis that are so distinct from place to place.

This book, therefore, serves as a reminder to all of us that selecting development priorities should not be done in Jakarta, but should start at the local level. One of the challenges to this is the regional imbalance of intellectual activities. Many best academic institutions including its intellectuals are still centered around Jakarta or a few regions in Java. Yet, development challenges are mostly local and regional. IRSA has definitely a responsibility to close this imbalance through various

activities of academic capacity building in the regions. Publication of this book is one of IRSA's attempts to meet these challenges. Congratulation.

Prof. Arief Anshory Yusuf
President of Indonesian Regional Science Association
May 2019

LIST OF CONTRIBUTORS

Achmad SOLIHIN

Department of Economics
Faculty of Economics and Business
Airlangga University, Surabaya

Adelina SIREGAR

Faculty of Agriculture
University of Pattimura, Ambon

Akhmad FAUZI

Economics and Management Faculty
Bogor Agricultural Institute, Bogor

Albertus Girik ALLO
